

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of claims:

Claim 1 (currently amended): A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options;

display control means (11) which causes display of the plurality of options ~~in~~ on said display unit by division; and

a ~~key for selecting an option~~ plurality of hardware keys each of which is operated to select a corresponding one of the plurality of options not currently displayed ~~in~~ on said display unit ~~from the options to the selected;~~

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option ~~in~~ on said display unit and causing when next displaying said original selection screen by operating ~~a key one of~~ said plurality of hardware keys, display of a screen that includes an indication of the selected option.

Claim 2 (previously presented): A communication terminal comprising:

a display unit (14) which displays an original selection screen for selecting at least one of a plurality of options;

display control means (11) which causes display of options in said unit by division; and

a key for selecting an option not currently displayed on said display unit from the plurality of options;

said display control means causing, when an option not currently displayed has been selected, display of a screen associated with said selected option on said display unit and causing display of said selected option in reverse when displaying said original selection screen next by operating said key.
